If you don't have Anatomy, business and/or energy management yet:

You are welcome to take the training, here is how it will work:

- 1. You will take our Massage theory and practical final assessments at the end of April 2023*
- 2. You will take the energy management course in September*
- 3. You will set your anatomy and business exams end of September and then achieve your Diploma*
- 4. If you have energy management already but are not ready for anatomy, you will follow the steps above and then arrange to take the anatomy exam when you are ready in your own time (so it can be anytime once we have 6 weeks notice)*
